Needs and Expectations

How do we prefer to work?

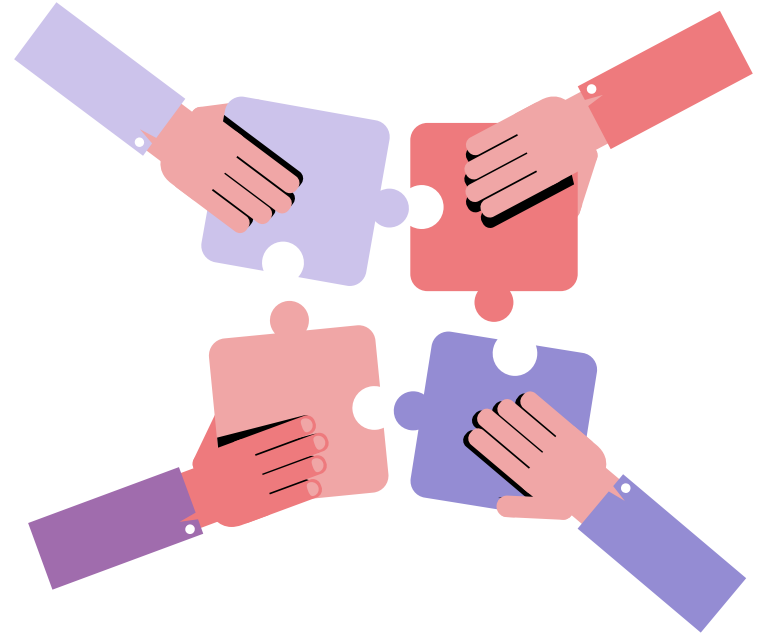

We prefer to start working individually at first, Then we will gather and each one of us will explain what did they understood and we will discuss it together.

Which way do we like to work?

Brainstorming!

What makes our team most productive?

- 1- Give our team members an ownership.
- 2- Ensure proper communication!
- 3- Identify our team strengths and weaknesses

Tools

Our team will use the following tools to collaborate with each other on projects

Our Goals

1

Develop programming skills for programming languages HTML, CSS, and javascript.

2

Having a strong knowledge of Figma.

3

Ability to work with team and time management.

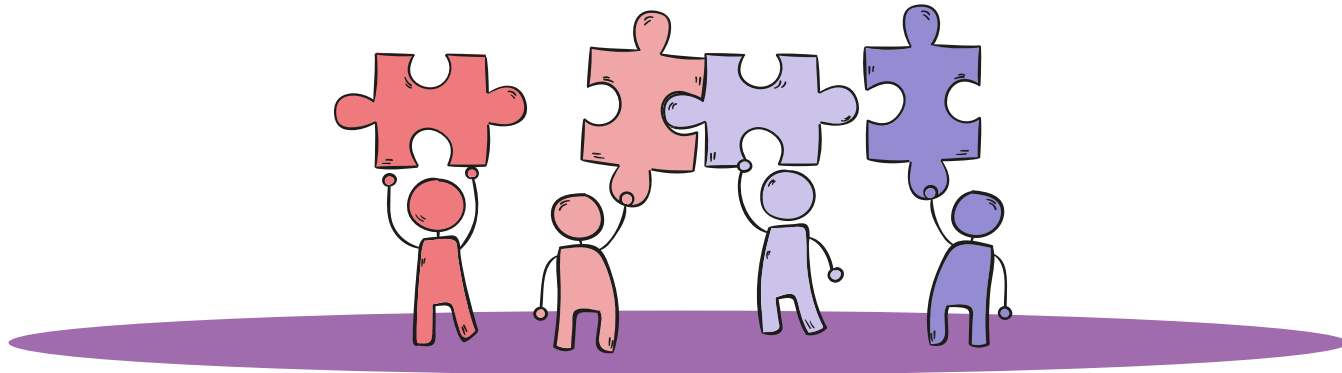

Weaknesses and Risks

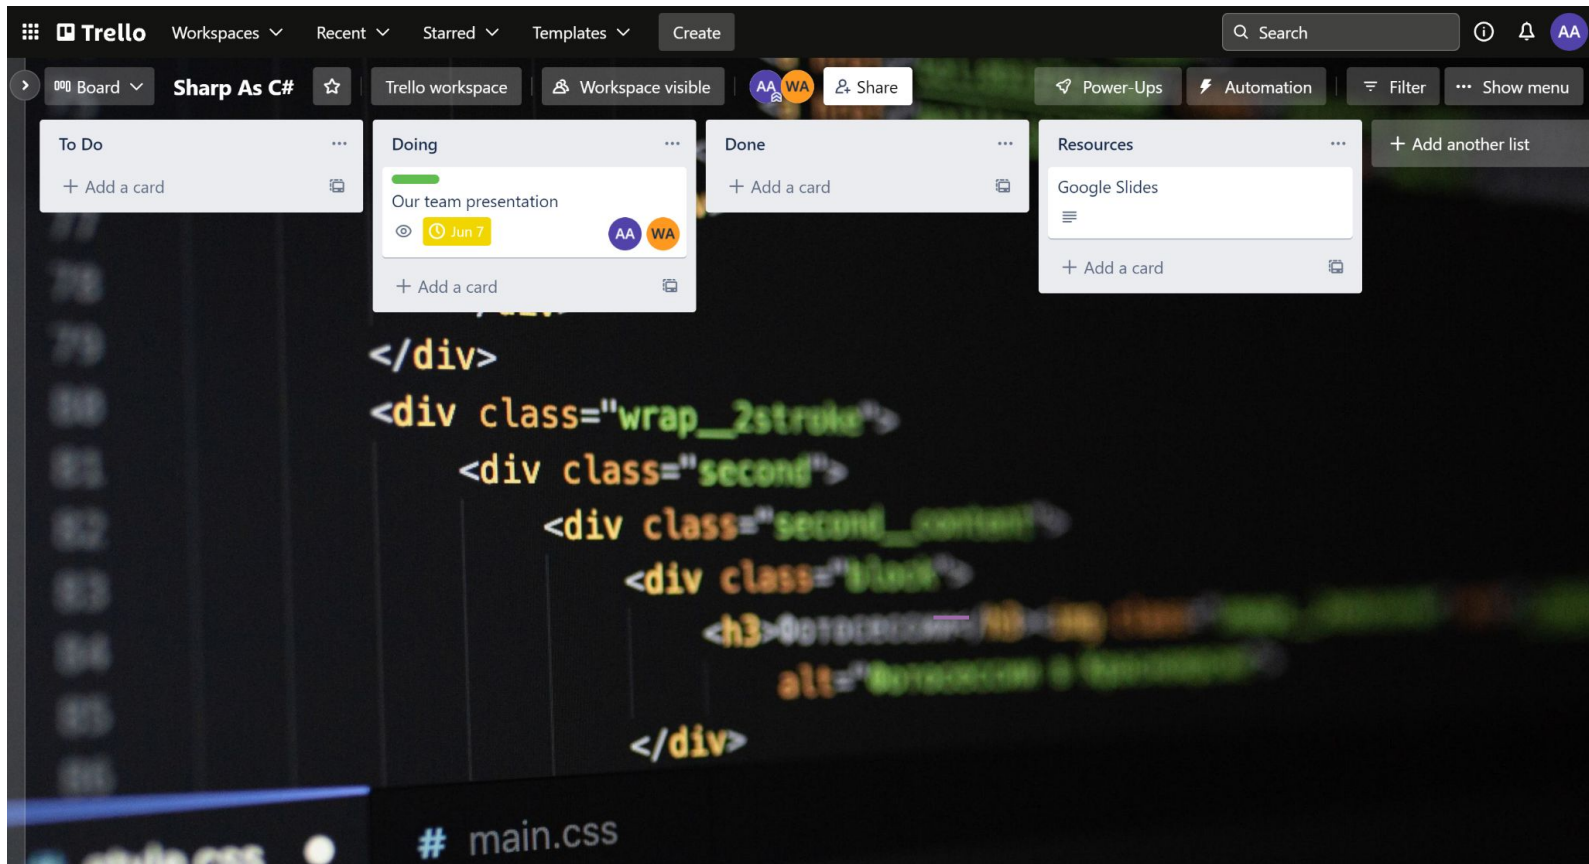

Expected Problems:

- 1- It will be hard to manage a time to schedule a meeting due to the diversity of our time schedule.
- 2- Internet Connection Issues.

Suggested Solutions

- 1- Setting up a date and time that all of us can agree with to schedule a meeting.
- 2- Record or Write notes about the important stuff to make as a reference.

Sharp As C# Board linke: [Here](#)

“Be sure that the sweat and effort you put into the books you read, the way you walked, and the good things you did, in the end, all will come back to you”

THANK YOU FOR LISTENING
